

NATIONAL ASSOCIATION

North American Packgoat Association (NAPgA)

Founded in 1999, the NAPgA is a 501(c)3 non-profit organization whose mission is to:

- Promote the use and enjoyment of packgoats
- Improve, mentor, and encourage competency in the practice of goatpacking
- Provide communication and disseminate information
- Promote scientific study of the caprine species, their care, welfare and training
- Urge recognition of goatpacking as a low impact packstock alternative
- Establish traditions which will aid, perpetuate, and further the welfare of goats and goatpacking

Misinformation has led to banning packgoats from many of our public lands. One of the NAPgA's most vital functions is to keep abreast of proposed public land closures and work towards keeping them open.

Membership dues help support research and legal fees involved in keeping public lands open to packgoats. Joining NAPgA is the best way for your voice to be heard.

Members also have exclusive access to NAPgA's newsletter for updates and information, as well as access to the member database and member map.
