## **V. New Business**

### **a) Micro Chipping at Rendezvous- Nan**

Nan was concerned about this topic in the discussion group online. She isn't on FB so she hadn't firsthand seen the conversation so when someone reached out to her about questions about it she was confused as well. Nan also felt that this could pose a problem because each state has its own rules and laws with SCRAPI tags. Nan also mentioned that prior to coming to Rendezvous a goat must be identified because they need to have a CVI to bring a goat. Taffy explained this was something they were looking into. Taffy clarified that the goats would have to have some sort of ID and that they would purchase these microchips themselves then bring them where it would possibly be done. Taffy said the feedback was good on the microchipping.

## **VI. Old Business**

### **a) Rendy Update- Nathan**

The forest service approved the permit. Nathan discussed classes that will be offered and the ones who volunteered. So far there is a lot of presenters. Brianna also has a vet willing to come out and demonstrate how to draw blood. Curtis mentioned there was some questions in regards to the description of the area, the parking, and access to water. Nathan said it's a large flat area, across the road is an actual unused air strip. There is water for the animals. Water for people is the only thing that is not readily close by available. Access is great for tents, RVs, and vehicles. There is plenty of space. Curtis mentioned a schedule needs to be put together. Nathan volunteered to put together a schedule. Desarae updated the group on the online auction it's ready to go and ready to start announcing.

b) **Committee Reports- Taffy**

Taffy wanted to do some committee reports but we were missing some members. Board members agreed these committees will be very beneficial.

VII.Meeting was adjourned.

Next Meeting will be June 7<sup>th</sup>, 2021.
